Clamps:-

We are engaged in offering our customers excellent quality clamp for delivery pipes. We have range of clamp like Wedge, lever, bolt type for Schwing type fitting, Putzmeister type fitting, Sany type fitting. These clamps are available in different size like DN 125, DN 150, DN 180 as per customers requirement. Material used for our clamp is Forged, which is equal to company standards. These clamps are thoroughly check by our technicians to avoid chocking up material in pipes. We value our customer's time and money.

Concrete delivery pipes:-

Due to our experience in this filed and deep knowledge about concrete machinery we can supply our customers a wide range of concrete delivery pipe line with quality assurance. Our pipes are specifically manufactured with ST 52 grade which is as per market standards.

We supply different length like 3 meter , 2 meter, 1 meter pipes with Schwing type, putz type collar fittings. Customers can rest assure of our pipes and spares quality as we are registered with local engineering association and our commercial practices are certified by D & B as well as MSME.

Concrete delivery Bends:-

With technical team and research we manufacture Pipe bends with high grade material and strict technical specification. Bends are offered in various fittings like Schwing type, putz type , are highly demanded in the installation of pipes and bends at reasonable price in market. These fittings are manufactured under the skilled professionals by using latest technology.

Our Product Range :

- Straight Pipes
- Bends
- Elbow
- Hose pipe
- Clamp
- Taper pipe/ Reducer Pipe

and many more spares too, we are regularly update our spare list as per market requirement.
